## 4 Candidates **Predict Victory** Next Tuesday

Mitchel Backers Claim Reelection by 40,000 to 65,000 Plurality

"Silent Voters"

Play Big Part in Election

With candidates and campaign managers in all four corners of the municipal election ring yesterday predicting victory for their tickets, the situation still appeared chaotic. The Tammany campaign managers and the Socialist workers were willing to venture figures on the general results, but Emory R. Buckner, chairman of the Fusion Cam paign Committee, contented himself with the prediction that:

#### Brooklyn Turning to Mayor

Despite the Hylan strength, the social-istic tendencies in certain sections and the anti-Mitchel Republican vote which is expected to go to Mr. Bennett, the Fusion leaders believed that the Mayor yould carry that borough by a small

would carry that borough by a small margin.

They are confident that the Mayor would carry Manhattan. The fight in The Bronx was said to be about a 50-50 proposition between Hylan and Mitchel, with the strong possibility that Mr. Hillquit might carry that borough on account of the large German vote. Tammany district leaders, however, are making desperate efforts both in Brooklyn and The Bronx to throw the German vote from Hillquit to Hylan.

A report reached Fusion headquarters that the word had been passed to the Tammany election district captains to get out at the eleventh hour in the districts where there appeared to be "an undeclared German vote" and "round it up" by featuring Mayor Mitchel's pro-war attitude. According to the report, the Tammany captains were to go into these districts Election. were to go into these districts Election Day up to 3 p. m., with plenty of post-ers of the Mayor in his Platisburg uniform, and make a fital appeal to the "disloyal vote."

Hylan Strong in Queens The situation of Queens and Richmond is generally conceded to have getten beyond the control of the mond is generally conceded to have gotten beyond the control of the Mitchel workers. Hylan, and practically the whole Democratic ticket, is expected to carry Queens by several thousand plurality. It would not be surprising to most of the leaders if the Hylan majority was 15,000. Richmond is expected to furnish 3,000 or 4,000 votes majority on the Tammany candidate's count.

A large Hillquit vote would be helpful to Mitchel, in the opinion of the

A large Hiliquit vote would be help-ful to Mitchel, in the opinion of the leaders. They figure that the Socialist candidate will cut heavily into the Tammany organization vote. This be-lief is based on the fact, particularly

ricts in which the Hillquit vote

tricts in which the Hillquit vote is supposed to be the largest, are mostly Tammany strongholds, or districts which the Republicans have not carried oftener than once in ten years. The Hillquit strength, however, appears to be slipping away.

Some of the Fusion and Republican leaders, who have been close observers rather than active workers, declared yesterday that Mitchel would poll a big majority over Hylan, depending upon the force with which the patriotic issue had come home to the voters. If this chief issue had not "sunk in," they declared, they expected it to every close between the Tammany candidate and the Mayor. They were not disposed, however, to entertain the possibility of the Mayor's defeat. They placed Hillquit third and Bennett a bad fourth.

"Silent Vote" Uncertain

A Big Factor

Compared to Loyalty Issue Expected to Play Rig Port in Practically all of the political wise-acres agree that there is an "unattached" and "unorganized" vote in the city of between 65,000 and 75,000 which cannot safely be ascribed to any one candidate. This is the best part of the so-called "silent vote."

The Mitchel managers contend that the Mayor will get the largest part of this vote on the issue of Americanism. The Fusion leaders see in the unusually large registration, of practically 700,000 votes, indications that the patrictic issue was the controlling factor, and became so directly after the Mayor formally accepted the nomination from the steps of the City Hall, where he first publicly denounced "Hylan, Hearst and the Hohenzollerns."

Morris Hillquit was in the midst of an argument for an early peace before an enthusiastic audience at Blayney's Hall, 181st Street and St. Nicholas Avenue, last night, when, at a most inopportune moment, the Hylan and Mitchel meetings in the neighborhood broke up.

The crowds from both meetings good naturedly merged and, drawn by the

But they were in doubt as to whether this marked gain for the Socialists would come more from the Fusion than from the Democratic ranks.

Mr. Bennett they credited with from 60,000 to 80,000 votes, mostly from Brooklyn, though in Mr. Bennett's case they confessed to a high degree of guesswork.

At one point the Socialist candidate mentioned the names of Roosevelt and Root, and, instead of being greeted with the hisses that had been expected, many of the men in the audience cheered loudly.

"Those cheers are from boys to whem the animal in the Colonel appeals, not his principles," said Hillquit.
